The Solar System

Synopsis

With this revised edition of THE SOLAR SYSTEM, author Mike Seeds' goal is to help you use astronomy to understand science -- and use science to understand what we are. Fascinating and engaging, this text will help you answer two fundamental questions: What are we? How do we know? Crafting a story about astronomy, Seeds shows you how to ask questions to gradually puzzle out the beautiful secrets of the physical world and our place in it. This edition addresses the newest developments and latest discoveries in the exciting study of astronomy, including new data on Jupiter's ring system; new observations of the shapes of stars; new evidence of dark energy, quasars, and galaxy collisions; and a look inside supernova explosions.

Book Information

Paperback: 464 pages

Publisher: Brooks Cole; 7 edition (January 1, 2010)

Language: English

ISBN-10: 1439050368

ISBN-13: 978-1439050361

Product Dimensions: 10.7 x 9 x 0.8 inches

Shipping Weight: 1.7 pounds

Average Customer Review: 4.1 out of 5 stars [See all reviews](#) (10 customer reviews)

Best Sellers Rank: #627,370 in Books (See Top 100 in Books) #52 in Books > Science & Math > Astronomy & Space Science > Solar System #597 in Books > Textbooks > Science & Mathematics > Astronomy & Astrophysics #1345 in Books > Science & Math > Astronomy & Space Science > Astronomy

Customer Reviews

Very large and impressive book. You must be on a countertop to view it, as trying to manage it on a couch, proved next to impossible. Great book/read - regardless.

It's a good book. I learned a lot. They need to update the planet mercury though because of the new studies and research NASA has done.

I bought this book for my Astronomy class and then found out I wouldn't need the book this semester. Even though I returned it, I looked through it and found it very interesting. It is very up-to-date with all the newest info on the subject.

when this item arrived at my door I imediately thought to myself "wow, that was fast." It arrived in great condition, right away i opened it and it was like if i had boughten it at my colleges' bookstore. I am completely satisfied with my order. Thanks

I love it
