The Apocalypse (The Undead World Series Book 1)

Synopsis

The Apocalypse--The Undead World: Novel 1 Greed, terrorism, and simple bad luck conspire to bring mankind to its knees as a viral infection spreads out of control, reducing those infected to undead horrors that feed upon the rest. It's a time of misery and death for most, however there are some who are lucky, some who are ruthless, and some who are just too damned tough to go down without a fight. This is their story. What the readers say about The Apocalypse: "No frills, just raw and earnest fear." "Fun and scary, it will have you turning the pages right to the end..." "This has everything I love in a good story: interesting characters, vivid details, fast pacing, and a shocker at the end."

Customer Reviews

This review is on the entire Undead World trilogy. So anyone reading this knows my rating system I consider 5 star zombie apocalypse fiction things like Max Brooks World War Z, The Walking Dead (the comics and TV show, not those cash grab novels on The Governor), Area 187: Almost Hell by Eric Lowther, Final Night by Johnathan Mayberry, and the first few books of Joe McKinney's Dead World series. That's my bar for 5 star ZA fiction. Also just to be clear I like the Romero type zombies. To me zombies who talk, use guns and tools, or do quadratic equations aren't actually

zombies. I'm good with running zombies so long as there is a plausible explanation like in ZA Rechts trilogy. The Undead World Trilogy meets and sometimes exceeds that bar. I stumbled on the story by accident. I read tons of ZA fiction and at the time I was waiting for a few other authors to finish up their story arcs and I have to tell you this was an awesome surprise. The trilogy starts out pretty standard as far as ZA stories go. But like all great zombie fiction a few chapters into the story it becomes about the characters and not the ZA at all. The undead are window dressing for character development. I don't want to spoil anything for anyone so I'll be as vague as possible here. This story has characters in it who aren't super-human rambo type zombie hunters. They can and do make mistakes. Some of them pay for their compassion and good will very dearly in the end. If you read this I will warn you, characters you grow to love will die.... characters you could happily kill yourselves will live. This story reflects reality in that we lose people we care about and the good guy doesn't always win. That's as specific as I can be without robbing you of taking the journey for yourself.
