Customer Reviews

This book was very helpful to me being a beginner mountain biker. It showed me - in detail - all the trails I could ride and then some. I feel it was very accurate, using great pictures and maps. I would definitely recommend this book to anyone who wants to ride cool trails in Santa Cruz. Thanks again, to the authors!!!!

This trail bike is definitely a must for any serious mountain biker. The Santa Cruz area has some of the best trails in Northern California and most bikers do not even realize where they are. I would definitely recommend this jam-packed book to anyone looking for a biking adventure in Santa Cruz County. The authors seem to recognize that people need information to guide them to the trails that are suited to their particular abilities. I found the information straightforward and precise. To the Authors - GREAT JOB -

I am a professional rider and have lived in the area for over 15 years. This book is the most accurate and descriptive book on the market and it is worth every penny no matter what level of rider you are. This is a great book and there are no inaccuracies and the maps are great. See ya on the trails my friends

This book gives all the information a biker could want about biking in and around Santa Cruz. It is very detailed and detailed in a way that shows it was written by a man and woman. I am a woman mountain biker so I believe I can tell a woman's input. I would buy any book these two put out.
