## Customer Reviews

My 7 year old loves The Boxcar Children Books. She finished this book in about four hours. She loved it, and read it straight through hardly taking a break for anything. This is an amazing mystery book with a great plot. The Alden children are able to figure out who is tampering with Katya's chances of winning the gymnastics competition.

I love the Boxcar Children books. I am trying to collect them all. When you read these books it is like being there with the children. Always a great story and they are good for the young and old alike.

I myself enjoyed the boxcar children. They were written some time ago but they capture my interest very quick. I can read a whole book in one night! The book really pulled me in because I have a strong love for gymnastics. Enjoy!

I highly recommend that no one reads too many of these in a row. For lack of a better phrase, they

are all pretty much the same. Still, it's a wonderful series. Guests in this one include Katya, Al, Lucas, Denise, Mrs. Patterson. I thought there could have been more interesting illustrations, seeing that the theme was gymnastics. How many pictures do we need of people talking and looking at things? Let's see some pictures of something worth looking AT.

Dear Gertrude, I chose this rating because I love gymnastics! I really like reading and this book. I really love mystery and gymnastics so this is a perfect book for me! I would definitely recommend this book to my best friend Morgan because she is just like me and loves mystery! Thank you for writing this book! 1/2/14 -Esther

I have always loved the boxcar children books. This book was one of the best that I have read. If you like mysteries and active books then you will like to read boxcar children books. They are my favorite books that I have read.

The book was a birthday gift for my granddaughter but when it arrived it looked like an old beaten up library book...in no condition to be given as a gift at all. I had to scramble to find another gift at the last minute. Very disappointing....

I wrote this because this is the type of book I wanted!!! I do not like older books but the box car children books are amazingly good! I love them, I have a oral book report due in two days on a mystery book and I could not seem to find a book anywhere that seemed interesting but this was amazing and I hope I get to read the other 116 books in this series. I love it!!!!!!!!!!!!
