Math Mammoth Grade 1 Review Workbook

Synopsis

Math Mammoth Grade 1 Review Workbook is intended to give students a thorough review of first grade math, following the main areas of Common Core Standards for grade 1 mathematics. The book has both topical as well as mixed (spiral) review worksheets, and includes both topical tests and a comprehensive end-of-the-year test. The tests can also be used as review worksheets, instead of tests. You can use this workbook for various purposes: for summer math practice, to keep a child from forgetting math skills during other break times, to prepare students who are going into second grade, or to give first grade students extra practice during the school year. The topics reviewed in this workbook are: * addition within 0 - 10 * subtraction within 0 - 10 * place value within 0 - 100 * addition and subtraction facts within 0-10 * telling time to the half hour * shapes and measuring * adding and subtracting within 0 - 100 * coins (US) In addition to the topical reviews and tests, the workbook also contains some cumulative (spiral) review pages. Please note this book does not contain lessons or instruction for the topics. It is not intended for initial teaching. It also will not work if the student needs to completely re-study these topics (the student has not learned the topics at all). For that purpose, please consider Math Mammoth Grade 1 Complete Curriculum, which has all the necessary instruction and lessons.
