Finding Finn: Wolf Shifter Mpreg Romance (Wolf's Mate Book 1)

Synopsis

Finn thinks he's not worthy of love. Luke thinks he's destined to be a lone wolf. But once they find each other, their lives will never be the same. Fresh out of the institution after a failed suicide attempt, Finn's ready to crawl back up and reclaim life. He'll stick to his plan, take the tests, kiss all the butts and get back into grad school. That's all he thinks about until he meets his new roommate the older, intimidating Luke. Kicked out of his pack for being gay, alpha wolf Luke sees no way out of the solitary life he leads. That is, until he sees Finn, bent over the kitchen island, and the need to claim him, take him, becomes too much to bear. He'll do whatever it takes to bring Finn out of his shell and convince him they're mates. But Luke's alpha essence begins to change Finn in ways he never could have imagined. While the possibility of starting a family fills him with pride, the fear of the unknown, of what it could do to Finn, fills him with dread. One thing Luke knows for sure--there is no going back, not after finding Finn.

Customer Reviews

Ran across this book as I was searching for something quick to read and thought I would give it a try. I don't normally purchase books from new authors and especially the 1st in a series with no idea

when book two will come out. But I'm glad I did! The story was good, the characters kept me engaged and the ending made me excited to read the next in the series. So win, win. Let me also add, a lot of new authors and a lot of the new books that are coming out don't edit their work. It's gotten so bad that if the book isn't on Unlimited I won't read it. There is nothing worse than buying a book that is so badly edited that you can't finish the read. With that said, this book could have used one last proofread to catch the misplaced or misused words. But overall I give this one a thumbs up for readability! And that is saying quite a lot for me because not editing is a major pet peeve. Especially with all the free editing software to be found, there is no excuse for not editing your work.

I received a copy of this book in exchange for an honest review. I loved it. I loved it so much I even bought a copy to help support the author. This book was well written. It had a great storyline and well developed character; I am looking forward to what comes out next.

The story line is OK, if a tad undeveloped in places. It would be better with some editing and review. Character development is weak. Issues for the MCs are alluded to but never defined for the reader. The end is acceptable.

Finn just got out of the hospital for an attempted suicide and goes to live with his sister. He doesn't know this but Luke is there, and he is an Alpha Wolf. Luke discovers that Finn is his mate, he only has to convince Finn. Will Finn accept Luke? What happens when Luke's father shows up? And when Finn has a stalker? An adventure that's for sure!! I loved this story so freaking much! So much!!! Please read! Finn is so sweet and Luke just balances him so much! I can't say enough!! I was asked for an honest review and did receive a copy.

I was instantly sucked in with this debut novel and I am excited to see what Kiki Burrelli will bring us in the future. Finn was a sweetheart. Luke was perfect alpha deliciousness. I want more of this series! So many things I want/need to figure out!! I am so picky about the shifter/mpreg books I read. Thankfully this one just seemed to have that something that made me fall in love with it instantly and left me dying for more.

Omg this was amazing.. I cannot wait for the next story. I loved how Finn was strong and stood up for himself even though he felt so weak and helpless. I love that he had problems.. real problems and they weren't fixed just because an alpha loved him. The mpreg part was amazing and I loved

how that came about. I also loved the issues with the other pack and how their pack comes to be.

I really liked the way this story built. I loved how it built. I liked Finn and Luke. I only wish there were more details at some points, it seemed like a few scenes were rushed, but I just love details and I hope more will be revealed in future stories. The secondary characters were interesting and the pace of the story was fast. I would definitely recommend this story.

I really enjoyed this book. This was a really great book in what I hope will be a great series. I usually don't like books that end on cliffhangers but this cliffhanger was more a set up for the next book than a cliffhanger. Luke and Finn were adorable, along with the rest of their rag tag team. I can't wait to read about the others in this group and watch them get their HEAs.
