Very handy guide. Waterproof plastic cards attached on one corner with a grommet. These are the knots included: Improved Clinch, Palomar Knot, Uni-Knot, San Diego Jam Knot, Offshore Swivel Knot, Rapala Knot, Bimini Twist, Seaguar Knot, Albright Special, Dropper Loop, Surgeon's End Loop, Double Uni-Knot, and Surgeon's Knot.

My husband just loves these little "how-to" for fishing knots. I was surprised how happy he was to get this product. He has commented frequently, rare for him, on how much he likes it.

Most of the knots on this is common knowledge for most fishermen. Where it comes in handy is for people new to fishing and too embarrassed to ask the question of a regular or when a regular is trying to teach someone. I fit in the middle. I used to fish a long time ago and remember how to do

the knots, but when I got back into it, I needed a bit of a refresher as to when and what to do. So, now its in the tackle box to help someone else.

This little series of cards is very helpful for identifying and tying knots for the person who does not tie knots on a daily basis.

Awesome! Just awesome! I practice my fishing knots at home and then when I get to the coast and go to tie my knots, I go blank! This is perfect! Waterproof, compact, illustrations are excellent and easy to follow. If you know someone who fishes I high recommend it for them. Would make a great little stocking stuffer.

Good item but the knots and be largely found on line at rio etc...look on you tube. The knots do describe the best for each situation and this is tremendously helpful for different line to leader or leader to tippet or tippet to fly knots. After ordering I looked on line and found plenty of videos but having this on hand is helpful on the water.

This was a surprise gift to a child who is fanatic about fishing, and he loved it. It arrived yesterday and he spent the evening practicing various knots and constructing different kinds of riggings for weights, lures and hooks. He's very excited about the next fishing trip, and not once did he ask for the iPad. That's what it's all about.

Very handy for all novice fisherman. It's cheap and extremely easy to follow. I use to rely on the clinch knot for most things fishing, but this has opened my eyes to stronger and smarter ways to tying line to lure/hook and different sizes lines together (albright). I'd recommend it.
