Lord Of Lords (Bible Prophecy Book 2)

Synopsis

This is the second in a six-volume series about the fulfillment of prophecies concerning the coming of the twin Redeemers of our time: Bahá'u'lláh and His Herald, the Báb. The first volume dealt mainly with prophecies about the time of the advent of the twin Redeemers; this one deals mainly with the events of their lives and those of their followers. The scientific evidence presented clearly shows that the biblical predictions about the coming of Christ, Bahá'u'lláh, and the Báb could not have been uttered or fulfilled by chance. The probability that chance alone could explain the fulfillment of biblical prophecies regarding the Central Figures of the Bahá'í Faith is 1 in 1080. How big is 1080? It equals the estimated number of atoms in the known universe!
